RELEVANT EXPERIENCE

Technical Support & Design — SocCom Ministry

Mary Queen of Apostles Parish | Feb 2022 – Present

- Provides technical support during events, including basic troubleshooting for presentations, sound systems, and livestream setup.
- Creates visual materials such as posters, digital graphics, and announcements using tools like Canva and basic photo editing software.
- Manages visual presentations and assists with technical requirements for various church activities.
- Part of the committee working on the parish's official magazine, contributing to design and content preparation.
- Continuously building technical and creative skills through hands-on experience.

Front-End Development Projects

Self-Initiated & Academic Projects

- Built and deployed a personal portfolio website using HTML, CSS, Next.js, and Vercel.
- Developed small-scale web interfaces for class projects and exercises using React and Tailwind CSS.
